My website is called YouRead.
As you can tell by the title, it's created for people who'd rather spend their days with fictional characters instead of breathing human-beings.

In this website, you can
    1) search for books/authors.
    2) browse books based on their genre.
    3) add books to your "Favorites".
    4) download books.

There will be a FAQs page, where we will be displaying the answers to the most asked questions, and there will be a Contact Us page where you can ask your own questions and we will be answering them as soon as possible.
